Our International Mission

Holding extensive International activities is an important mean serving several purposes:

Advancing
the field of
research

Opportunity for
students to acquire
skills needed for the
local and
International labor
market

flow of knowledge:
International relations lead
to the flow of knowledge
from one Academic
institution to another.

Establishing
social and
academic
networking

Multiculturalism-
getting to know
other students all
over the world

Our International activities

Development of cooperation with International institutions

Our International activities

Barter courses:

Courses that are “traded” with courses from a partner Institution
WGC and ASU, USA: Students from both Institutions

Blended Courses:

Joint course with a partner International institutions
Students from both Institutions

WGC and Dayton Ohio: Multiculturalism

WGC and Bolton University, Manchester:

Business in the Global Village & Intrapreneurship & Innovation

Our International activities

Summer “crash courses”

short courses (2-3 weeks) that are being held on campus for either the whole period of time or partial (hybrid & virtual)

WGC and Jewish University in Hungary: Charity and Philanthropy in Jewish, Christian and Muslim Societies

WGC and UNIBA Bratislava: Modern Marketing and IT

Our International activities

Student Exchange

WGC welcomes approximately 100 students every year from all over the world

WGC sends approximately 30-50 students for outgoing exchanges

Scholar exchange

WGC welcomes approximately 30 scholars every year from all over the world

WGC sends approximately 30-50 scholars for outgoing exchanges

Our International activities

International conferences

WGC hold **approximately 50 conference every year**. At least 20 of the conferences are International conferences

The challenges

English language skills

Willingness/ability of students to go on
long-term student exchange programs

Technological programs

Future development

➤ Development of partial International programs (A group of courses taught together with a partner international institution in various fields)

Development of full International programs with partner institutions

Increasing the number of students going out for International programs

Increasing International collaborations with the countries of the region: existing: Morocco, Turkey, Greece, Cyprus

Developing International collaborations with Asia

Development International programs with technological aspects
