Internationalisation for IP Santarém

Internationalisation is a critical element in the development strategy of the Santarém Polytechnic University. By attracting international students and collaborators, the institution enriches the cultural diversity on its campuses, providing a global learning experience for its students.

In addition, the international partnerships established expand opportunities for student and faculty mobility, strengthening the reputation and opening up new avenues for co-operation in research and innovation.

Erasmus and International Programs

Erasmus

IPSantar é m offers Erasmus exchange programs, allowing students to study abroad and gain international experience.

International School

The university also hosts summer course, providing an international learning experience for students.

Support Services for International Students

1 Orientation and welcome

IPSantarém offers a welcome programme with practical information on housing, transport, documentation and cultural integration to facilitate the adaptation of international students.

3 Administrative Support

IPSantarém's international team provides assistance with bureaucratic procedures, ensuring a smooth transition for students.

2 Academic Support

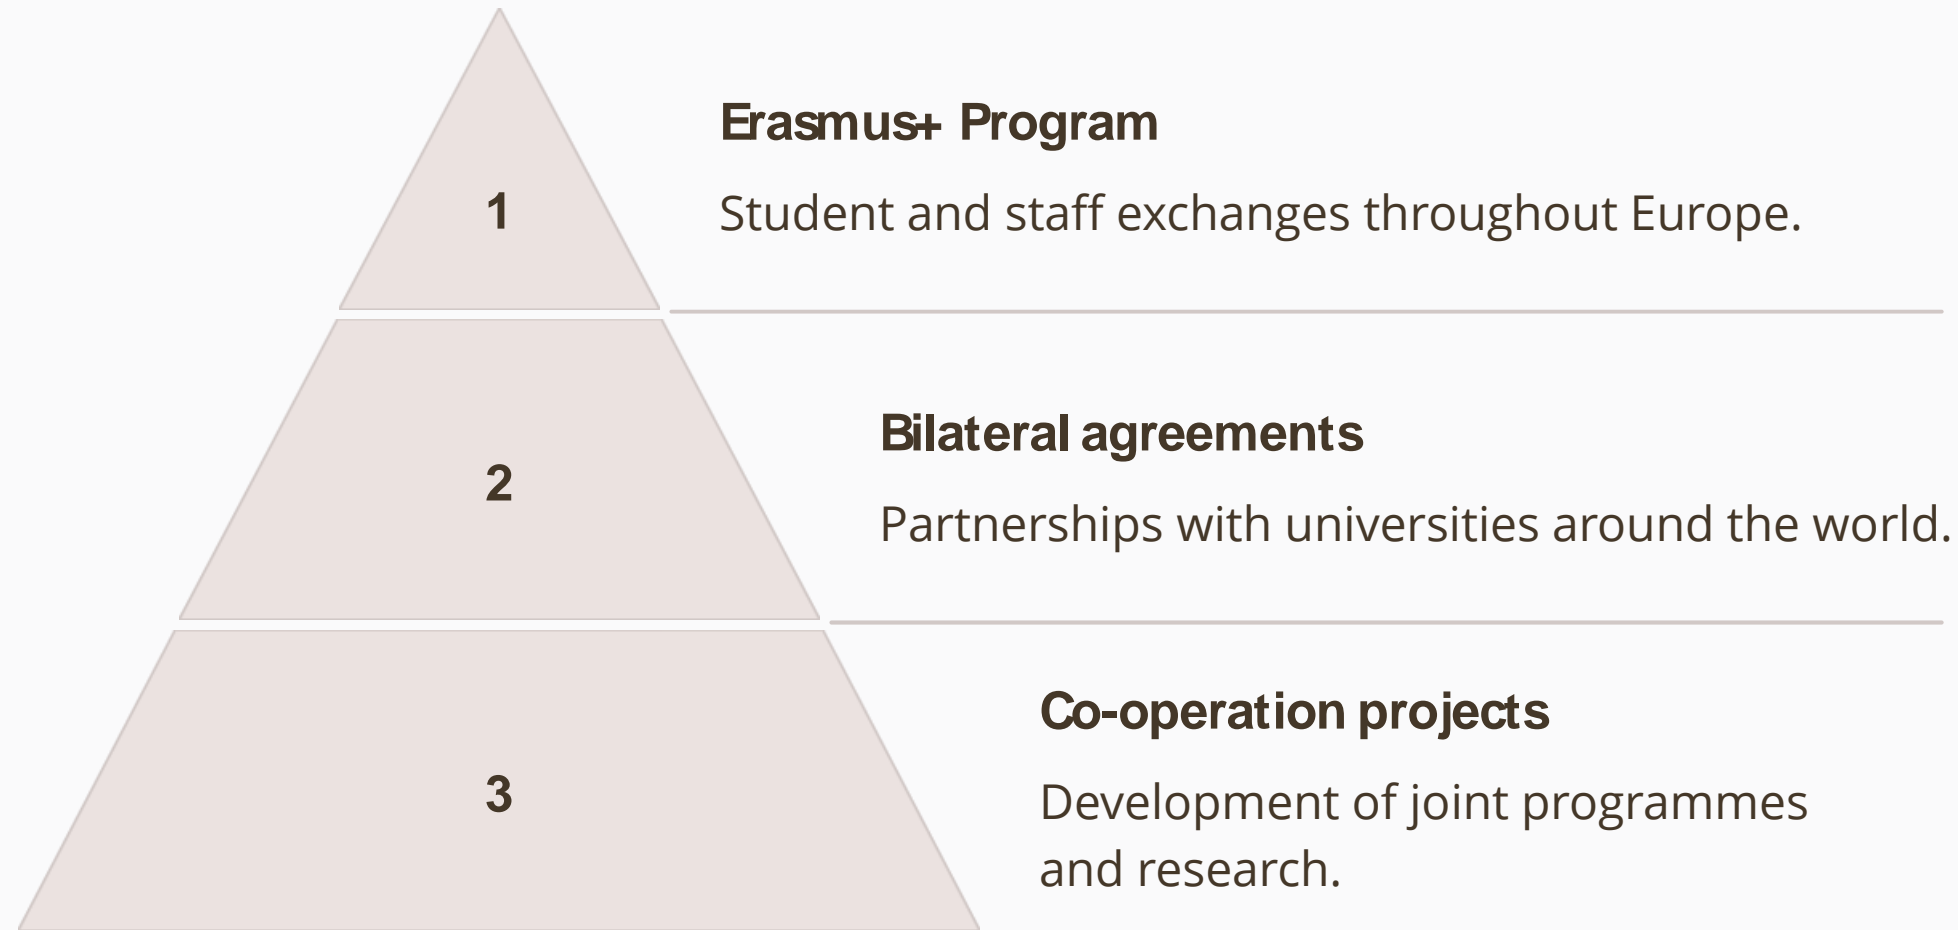

Individual tutoring, Portuguese language courses and academic coaching sessions are available to support international students' success in their studies.

4 Social Activities

IPSantarém organises cultural events, excursions and leisure activities so that international students can get to know the region, make new friends and integrate into the community.

Current internationalisation strategies

The Santarém Polytechnic University offers various international mobility initiatives, allowing academics, staff and students to experience enriching experiences abroad. Through the Erasmus+ Programme, bilateral agreements and cooperation projects, we encourage our community's internationalisation and solid partnerships with higher education institutions worldwide.

International partnerships established

Academic Exchange

IPSantarém maintains partnerships with universities worldwide, allowing its students, faculty, and staff to have enriching academic exchange experiences.

Collaborative Projects

These international partnerships also provide opportunities to carry out joint research and innovation projects, strengthening the bonds of cooperation between the institutions.

Events and Conferences

The Institute regularly hosts international events and conferences, attracting academics from around the world to discuss relevant topics and promote the exchange of knowledge and experience.

Future plans to boost internationalisation

1

Expand Exchange Programmes

Establish new agreements with international universities and increase the places for students, academics, and staff to participate in exchanges.

2

Internationalisation of the curriculum

Continuously updating study programmes to incorporate international perspectives and prepare students to work in an increasingly globalised world.

3

Strengthening Global Partnerships

Expanding the network of international partners in various sectors, such as research, innovation and project development, will create more opportunities for collaboration.

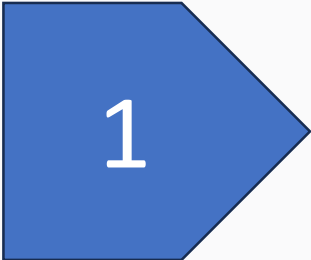

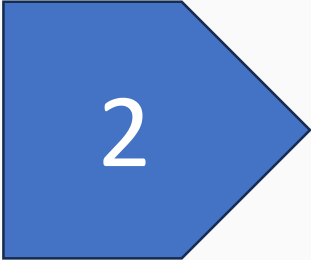

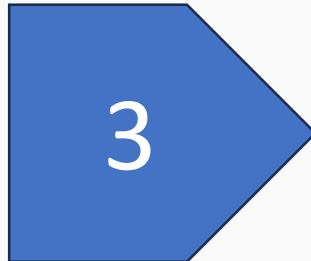

Contact the International Office
